

**Table 5**

**ANALYSIS OF VOTES BY PARLIAMENTARY CONSTITUENCY**

This Table analyses the votes (using “Averaged Data” votes, as explained in the introduction to Table 4) in Parliamentary Constituencies. Due to the frequency of unopposed returns, a column of the Table indicates how many wards were contested. The lower the number of contested elections, so the reliability of the analysis showing the true political “mood” in a constituency decreases. T’out is for the contested wards.
