EXPLANATORY NOTES

General

The name of the ward is printed at the top of the page, followed by a number within brackets. The number is used in the index of candidates.

Under the name of each ward there are seven columns:-

Election	The year of each Borough Election and the date of any by-election.
Electors	The number of electors on the Register in force at the time of the election.
T'out	The turnout — the number of electors voting expressed as a percentage of the total electorate.
Candidate	The first forename, initials of subsequent forenames and surname of the candidate.
Party	The party affiliation of the candidate. When a Councillor seceded from a party after election an indication is made in a footnote.
Votes	The number of votes polled by the candidate.
%	For multi-member vacancies: the number of votes polled by the candidate expressed as a percentage of the number of ballot papers issued.
	For single-member vacancies: the number of votes polled by the candidate expressed as a percentage of the total number of valid votes. Where necessary, the figure for the winning candidate has been adjusted so as to provide a total of 100.0% for the election.

Borough Election Polling Dates

Polling took place on the following date, between 7.00 am and 10.00 pm:

2022   Thursday 5 May

By-elections

These will be denoted by the year followed by the date (day/month) within brackets. The cause of the by-election will be shown within square brackets above the year. The majority of the successful candidate will be given.

Co-operative Party

Co-operative Party candidates are endorsed by the Labour Party and (when identified) are designated as Lab/Co-op.

Forfeited Deposits

For London Borough Council Elections, candidates do not have to lodge a deposit with the Returning Officer.

Independent Candidates

Footnotes with details about Independent Candidates are given where appropriate.

At the 2022 Borough Election one of the Independent candidates contested the election as 'Independent Network'. According to Wikipedia, an on-line reference source, the Independent Network is a United Kingdom-based non-profit organisation, founded in 2005, that supports independent politicians and political candidates. The Network does not impose any political views on the individuals it supports; however, they must be non-discriminatory and adhere to a code of conduct.

Presentation of Candidates

The first forename, initials denoting other forenames and the surname of each candidate is given. In some circumstances the first forename is not an indication of the name by which the candidate was commonly known.

University degrees, professional qualifications, decorations and service ranks have been omitted from the election results for reasons of space and accuracy. Medical qualifications and University degrees of the level of Ph.D. are indicated in the Index.

For clarity, successful candidates in multiple-vacancy contests are grouped separately from those not elected.

A candidate may change his or her name by deed poll or by marriage subsequent to contesting an election. Any known change in surname has been noted.

Turnout

Turnout is calculated from the number of ballot papers issued at the polling stations and therefore a small number of totally spoiled ballot papers are included in the calculation.

Ward Boundaries

Maps showing details of Harrow's ward boundaries have been published by the Local Government Boundary Commission for England. This booklet contains a simple outline map of the boundaries.
