Note that a "minor" boundary alteration between the Harrow Central and Harrow East constituencies occurred at the February 1974 General Election. This arose from the implementation of the proposals of the Boundary Commission for England, *Second Periodical Report*, Her Majesty's Stationery Office, London, 1969. This alteration is confirmed in F.W.S. Craig, *Boundaries of Parliamentary Constituencies 1885-1972*, Political Reference Publications, Chichester, 1972. The purpose of the change was apparently to ensure that Parliamentary boundaries conformed with ward boundaries. However, during research for this book, and subsequently, no information has been found to indicate what the boundary change might have been. An error in the *Second Periodical Report* cannot be ruled out.
